RB50 Moveable Vehicle Barrier

The RB50 is a movable, modular vehicle barrier which provides a versatile on-site solution for protecting events and work areas from vehicle incursions.

The fully galvanized steel system can be wheeled into position on an as needed basis and has been designed for compact storage in specially designed stillages, when not in use protecting events and work areas from vehicle incursions.

- Surface mounted
- Deployment in as little as five minutes
- Ease of reconfiguration and extendable design
- Integral wheels enable manoeuvrability and extendable design
- Robust galvanised steel construction
- Optional stillages for compact storage and transportation

Technical Specifications

Weight: 260kg (4000mm array)

Width: 4000mm (can be extended)

Height: 800mm

Depth: 1100mm

Innovative Solutions For A Safer Future

We are specialists in protecting people, places, infrastructure and communities around the world. You can rely on us for:

- **Market-leading solutions**
- **Technical knowledge**
- **Responsive customer service**
