# SMA Range

Our SMA crash cushion and end terminal range includes protection for people, vehicle and assets suitable for any road or urban environment.

Choose from:

- **Ermes** – crash cushion performance at end terminal price with market leading short system lengths. Available in P1, P2 & P4 configurations
- **Janus** – a back-to-back crash cushion, suitable for protecting hazards from impact on three sides
- **Taurus** – a crash cushion designed to protect the ends of temporary barrier and ideal for use with our BG800® temporary barrier system
- **City** – a repairable crash cushion ideal for urban roads with chamfered corners to prevent any risk of harm to pedestrians
- **Tree** – an installation of two City crash cushions with an adjustable connecting panel to suit varying hazards
- **Armadillo** – an aluminium covered crash cushion designed specifically to protect motorcyclists from potential impacts
- **Leonidas** – a crash cushion range with 43 variants in four sizes

## Everything You Need From A Single Range

- Market-leading short system lengths
- Pre-assembled units for ease of installation
